JPT SCARE BAND - Jamm Vapour CD

JPT Scare Band has been blazing psychedelic trails for quite some time now. This indie CD was released on April Fool`s Day 2007 by Kung Bomar Records, LLC, a company formed by the members of this veteran group of bluesrock jammers. The CD features all new material written and performed by the original lineup of JPT (Jeff, Paul, Terry). The band went back to their roots by recording all of these tunes live in the basement straight into a Yamaha AW-4416 digital workstation recorder. Although more structured than the freeform jams captured in their homemade recordings from the 1970s, these tunes still feature lots of jamming with the long crazed Terry Swope guitar solos which have become the hallmark of JPT. Excellent heavy psych stuff drenched in full blown acid guitars. If the band signed a major contract in the 70s, they would be up there by now in the hall of fame alongside HENDRIX, CREAM, BLACK SABBATH for their guitar-overloads.
