J.J. Paradise Players Club - The J.J. Paradise Players Club

Who is J.J. Paradise Players Club? Is it a strip joint? Is that that bad Ice Cube movie from a few years ago? Is it some bad Cash Money hip hop artist from New Orleans? These are all good guesses but the truth is J.J. Paradise Players Club is a four-piece Rock N' Roll band from Brooklyn.

Spawned from the ashes of such seminal noise/rock/hardcore bands as THE UNSANE, KISS IT GOODBYE, GLAZED BABY and THE KILL VAN KULL. The band was formed in early 2000 by Dave Curran (Bass/Vocals-Ex-UNSANE), Joel Hamilton (guitar-Ex-Glazed Baby), Eric Cooper (guitar/vocals-Ex-Kiss It Goodbye) and James Paradise (Drums-Ex-Kill Van Kull). Their sound is blend of all things primitive and essential in Rock N' Roll. Groove, Sleaze, Noise, Humor, Danger. It's all there. J.J Paradise Players Club's batteries are charged by today's inane musical climate and their desire to explode on even the most jaded Rock fan.

First full-length from members of UNSANE, KISS IT GOODBYE, GLAZED BABY and THE KILL VAN KULL.

This album makes you want to twist the head off your token local scenster while eyeballin' his girl for a late afternoon hump session. Brawn, brains, brutality and brazen porn sleaze is how

J.J. playes their hand.

Jack Saints - Rock And Roll Holocaust

"These San Franciscans have a heavy Stooges/MC5-injected ooze, but they toss in some Motorhead and '60s garage rock riffs to fuck with the mix and create their own unique rock and rollocaust" (SF Bay Guardian)

Jericho Jones - Junkies, Monkeys And Donkeys

"Israeli group that began as the Churchills, moved to England, changed their name to Jericho Jones, then simply Jericho. They released this one album in 1971 (as Jericho Jones) on A&M that lies between the psychedelia and hard rock/psych sound. An obscure but classic album. Featuring 5 previously unreleased bonus tracks. Original artwork."

JPT Scare Band - Past Is Prologue

"Their music is psychedelic/stoner/bluesrock ecstasy. If it didn't say otherwise in the notes, I would have believed this was recorded this year. Blissfull assurance that great music is truly timeless. An outstanding rhythm section, emotive vocals, and a one in a million guitarist make the JPT Scareband the best new "old" band of the year."

Juggernaut/BBUG - The Cato Street Conspiracy

"JUGGERNAUT & BBUGG are two separate bands, still this cd isn't some usual split cd. In fact the album contains 6 tracks in the following order : "A halo of flies" (JUGGERNAUT), "Texture d'anarchie sereine" (BBUGG), "Control in the eastern landscape" (J), "La proie désinvolte" (B), "A miniaturisation of space" (J) and the great "Thème de fin: reach the ants" by both JUGGERNAUT & BBUGG. The 3 JUGGERNAUT tracks are instrumentals and are based upon improvisation and ambient background. The sound remains to me some kinda QUORTHON, BATHORY or BURZUM mood without vocals, strange, pretty cool but really hard to describe. The 2 BBUGG songs sound a bit like some new MIKE PATTON's project (FAITH NO MORE, Mr BUNGLE, FANTOMAS), very rock with french clear vocal-lines, and especially very... amazing. Finally, the last track combine the ingredients from the two bands, that is clear pattonesque melodies fixed with tortured experimental background... a real pleasure !"

Jumbo's Killcrane - Carnaval De Carne

Lawrence, Kansas math-sludge berserkers revisit the doom and improve it, modernize it, make it more accessible to

all. Their songs are nuggets
of Métales where all the
tendencies are represented
death, stoner, hardcore, and
groove.
